

## *Vicar's Landing At eTOWN Announcement:*

*Vicar's Landing Senior Services is pleased to announce a new, resort-inspired age-restricted community at eTown, a master planned community on Jacksonville's Southside. As a next-generation addition to the tradition of excellence established by Vicar's Landing at Sawgrass and Vicar's Landing at Oak Bridge, the forthcoming Vicar's Landing at eTown will offer the same high standards and vibrant member culture in the heart of Jacksonville's innovative master-planned community. Upon completion, residents will enjoy over 1.1 million square feet of thoughtfully designed living and amenity space, with 375 residences planned across independent living, assisted living, and memory care, all surrounded by lush conservation areas, parks, trails, and smart-living innovations.*

*Guided by an experienced team of partners, including SFCS Architects, OnePoint Partners, Clark Advisory Services, Prime AE, Ziegler, and CliftonLarsonAllen, this phased development is set to redefine senior living in North Florida. Presales and early interest opportunities are expected to begin in early 2026 with move-ins anticipated to begin in 2030.*

Life Choice Community™
